

LEVER LOCK

LeverLock is another smart item out of Profi Products' idea-workshop.

With only one twist the special strip is pulled around the front break lever and fixed tight by a Velcro® fastener. Now front brake and wheel are blocked for secure parking.

LeverLock ensures a safe parking position during transport, on a workshop-lift or even on sloping grounds. If attached to your key ring, LeverLock serves also as an attractive key fob.

Short description:

LeverLock is a specially designed strip to lock the hand break lever of all types of 2-wheelers

Note for dealers / distributors:

LeverLock is available as a personalized product with your company logo, e.g. for bikes in showroom or as a promotional article. Contact us for details.

Packaging:

LeverLock – 2 pcs. per pack.

Also available as PARK-SET, consisting of:

1 x LeverLock

1 x BikeFoot (Support for side stand)

Many editorials by the international industry media confirm the extraordinary performance of products and team around proprietor Reiner Bayer.
