BATTERY TENDER

BATTERY TENDER® is the # 1 battery charger in the USA, the world's largest market for power-sport products. 40 years of experience and the close cooperation with leading battery manufacturers guarantee products with state-of-the-art technology.

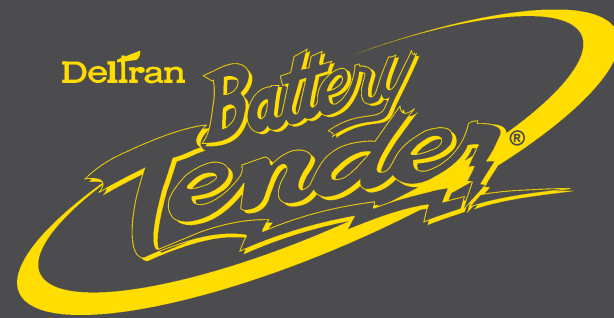

Modern batteries are developed for the particular requirements of the appropriate vehicle. "Spare capacity" is often very limited and the battery must be in best possible condition ...

Battery Tender® chargers guarantee full power at all times. They automatically test type and condition of the battery. They charge if needed and then switch into the maintain-mode for an indefinite period of time.

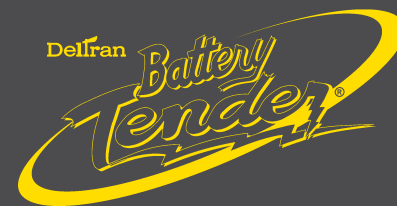

Only this mode of operation prevents the battery from early sulphation and extends its life dramatically.

Battery Tender® chargers never turn off. Possible consumers (alarm, clock, electronics) are supplied by the charger and not by the battery. Your Battery Tender® assures that your vehicle is ready to go when you are!

Battery Tender® – The Best Battery Chargers Money Can Buy!

The chip-controlled BATTERY TENDER® chargers apply to all lead acid batteries (including MF-, Gel- and AGM batteries). As European warehouse we stock all EU - as well as UK-specified products.

If you want to assure that your battery is always charged correctly and your vehicle is always ready to go ... keep it connected to a Battery Tender®!

EURO 400

12V / 0,4 Amp

4-step fully automatic charging

Spark proof
Reverse polarity protected
Short circuit protected
Safety timer
LED indicator

Recommended for
Private users
Batteries up to 65 Ah

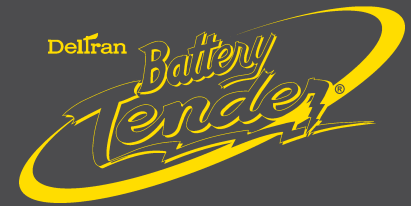

WATERPROOF 800

12 V / 0,8 Amp

3-step fully automatic charging

Waterproof
Vibration & shock resistant
Spark proof
Reverse polarity protected
LED indicator

Recommended for
Private users & workshops
Batteries up to 130 Ah

BT-TWIN 800

2 x 12 V / 0,8 Amp each

3-step fully automatic charging

Unique housing
Dual independent outputs
Spark proof
Reverse polarity protected
LED indicator
Sound module for V-Twin "engine" sound

INTERNATIONAL 1.25

12V / 1,25 Amp

4-step fully automatic charging

Vibration & shock resistant

Temperature sensor

Spark proof

Reverse polarity protected

Short circuit protected

Safety timer

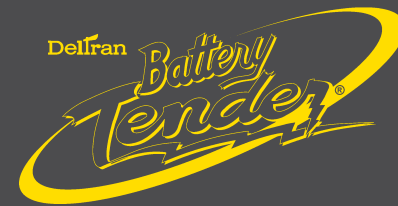

LED indicator

Recommended for

Private & professional users

Batteries up to approx. 185 Ah

Larger batteries: Maintenance only

ACCESSORIES

Included with every charger:

**Quick disconnect cable with alligator clips
Separately fused
(BT-TWIN: x 2)**

**Quick disconnect cable with ring terminal for permanent mount to battery of vehicle
Separately fused
(BT-TWIN: x 2)**

Optional Accessories:

extension cable 25 ft/7m

quick disconnect cigarette adaptor

quick disconnect fused universal cigarette adaptor 12/20 mm

BATTERIE MANAGEMENT SYSTEM

12V / 1,25 Amp per channel

4-step fully automatic charging
(Initialization, bulk, absorption, float)

Temperature sensor
Spark proof
Reverse polarity protected
Short circuit protected
Safety timer
LED indicator

2 (4) quick disconnect cables with alligator clips included
2 (4) quick disconnect cables with ring terminals included

Recommended for
Workshops & private users
Batteries up to approx. 185 Ah
(each channel)
Larger batteries: Maintenance only

INTERNATIONAL 2

INTERNATIONAL 4

INTERNATIONAL PLUS 2-BANK

2 separate outputs, 1,25 Amp each

INTERNATIONAL PLUS 4-BANK

4 separate outputs, 1,25 Amp each

PORTABLE POWER

**Automatic bi-level DC output power
12V / 2,5 Amp or 5,0 Amp**

4-step fully automatic charging

Spark proof
Reverse polarity protected
Short circuit protected
Safety timer
LED indicator

Unique 3-wire cable accessories included

PST 100 TESTER

**12V Battery Measurement
2,3 – 30 Ah / 10 – 500 CCA
Voltmeter range 8V – 19V**

Spark proof
Short circuit protected
Works on discharged batteries
