

# Product data: CAT-Line - Chain Alignment Tool -

**NEW! Light and slim design (12mm)**

## NEW:

**The most popular chain alignment tester among our customers -.** Profi CAT-Line is now available in a narrower (12mm) and lighter version.

The line laser is visible over the entire length of the chain and thus enables faster visualization. The precisely adjusted straight line ensures optimal driving performance. **The very effective laser device is also ingenious for Belt Drive control.**

Description: **CAT-Line – 12mm - Line Laser Chain Alignment Tool -**
